A. **PUBLIC HEARING, APPLICATION NO. ZT-4-2008, FILED BY WEST VALLEY CITY, REQUESTING A ZONE TEXT AMENDMENT TO ESTABLISH STANDARDS FOR FOOD VENDING CARTS AND MOBILE FOOD VENDING VEHICLES**

City Manager, Wayne Pyle, stated a public hearing had been advertised for the Regular Council Meeting scheduled September 9, 2008, at 6:30 P.M., in order for the City Council to hear and consider public comments regarding Application No. ZT-4-2008, filed by West Valley City, requesting a text amendment to establish standards for food vending carts and mobile food vending vehicles. He discussed proposed Ordinance No. 08-40 related to the Application to be considered by the City Council subsequent to the public hearing, as follows:

Mr. Pyle stated that on March 18, 2008, and effective March 24, 2008, the Council enacted a moratorium on food vending carts. He also stated this had been to allow time for City staff to investigate and examine how those uses impacted the City, businesses and property owners, and to review and draft applicable standards for food vending carts.

The City Manager indicated currently the City Code allowed for food vending carts however few standards applied to these uses. He stated when the Code had first been drafted most carts used were open air carts and not used year round. Therefore, a time limit had not been placed on this use as it was typically self-regulating. However, the trend seemed to be going more towards enclosed food carts, which could stay on a site all year round, and making the use more permanent and not temporary as was originally intended.

Mr. Pyle reported that after meeting with the Fire Department, Building Inspection Division, Business Licensing, and Code Enforcement, and the Salt Lake Valley Health Department, it had been determined some guidelines were necessary for this use if it was going to continue to be allowed.

Jody Knapp, CED Department further reviewed the application and distributed written information summarized as follows:

- Current standards
- Map showing location of carts with current licenses
- Photographs showing examples of food vending carts and catering trucks
- Proposed requirements
- Definitions
- General restrictions

During the above discussion, Ms. Knapp answered questions from members of the City Council.

The Council discussed issues regarding the need to regulate the food vending carts. They also discussed and commented regarding complaints received from residents regarding carts. Discussion ensued regarding whether a cap should be imposed on the number of such vendors licensed by the City or if the market should dictate that number. Some members of the Council expressed concern the proposed cap was based on the number of residents. Some members of the Council expressed concerns regarding enforcement and stated this was also an image issue.

City Manager, Wayne Pyle, answered questions from members of the City Council.

ORDINANCE NO. 08-41, AMENDING SECTION 7-9-113 OF TITLE 7 OF THE WEST VALLEY CITY MUNICIPAL CODE REGARDING THE LANDSCAPE BERM REQUIREMENT

City Manager, Wayne Pyle, discussed proposed Ordinance No. 08-41 which would amend Section 7-9-113 of Title 7 of the West Valley City Municipal Code regarding the landscape berm requirement.

Mr. Pyle stated modification to the subject section had been suggested to eliminate need for a three foot high landscape berm in certain situations, such as not being able to meet drainage requirements in any other practical manner other than using swales or using accepted techniques and materials as part of an energy efficient program (i.e., Leadership in Energy Efficient Design (LEED) certification) or an environmental enhancement program such as bioswales. The City Manager discussed the following restrictions that would apply:

- The Planning Commission may consider this alternative as a conditional use on properties over ten acres
- Modification would be allowed only in an 'M' zone
- Allowed only on interior streets within the development
- Not allowed on any high image street or major arterial

He further stated, in addition, on March 18, 2008, the Council had enacted a moratorium on food vending carts. He indicated this was to allow time for City staff to investigate and examine how these uses impacted the City, businesses and property owners and to review and draft applicable standards for food vending carts.

The City Manager reported currently the City Code allowed for food vending carts, however, very few standards applied to these uses. Mr. Pyle reported that after meeting with the Fire Department, Building Inspection Division, Business Licensing, Code Enforcement and the Salt Lake Valley Health Department it had been determined some guidelines were necessary for this use if it was going to continue to be allowed.

He also stated the proposed ordinance protected our citizens from fraud and abuse by door-to-door solicitors and protected the City from potential claims from solicitors.

The City Manager reported the Solicitation Ordinance required its own section of the Code and should be separate from the vending and temporary business section of the Code.

City Attorney, Richard Catten, further reviewed the proposed Ordinance and answered questions from members of the City Council.

He stated the County had 14.66 acres in that area including a portion being used as storm water retention. He indicated this would be a neighborhood park with parking areas for open field play, a pavilion, drinking fountains, picnic tables, and possibly a restroom. He stated over 8.5 acres of the 14.66 were in West Valley City.

City Manager, Wayne Pyle, reported Salt Lake County park planning had hoped to get planning completed this fall/early winter, and start construction in the spring/summer of 2009.

Mr. Pyle stated a conversion to Microsoft Outlook/Exchange was needed to provide improved e-mail services for City departments.
